 - Free registration to the 6th International Workshop on Lung Health.

* to be confirmed

Submit your abstract before **October 23, 2017** on www.lung-health.org

FUTURE LEADERS' MENTORING

Congresses and workshops remain an important way of continuing medical education after the University, therefore, it's crucial to provide young specialists with instruments to keep themselves up-to-date and informed in an unbiased way.

A limited number of Residents / PhD students in Respiratory Medicine will be accompanied throughout the congress in a tailored training. The aim is teaching them how to identify, synthesize and apply in daily life the most important messages provided during the main lectures of the workshop. Check the congress website to see how to candidate for this opportunity.
