## ERS Course

# EBUS training programme – part one

**11 November, 2021 | Online**

Training qualified doctors to independently and competently perform EBUS.

Part one covers the theoretical knowledge that is required for EBUS; the clinical literature will be reviewed, and the equipment and techniques used for this procedure will be demonstrated.

### IMPORTANT INFORMATION

- Before the course, participants are requested to study online modules.
- A week after the course, participants must complete an online test consisting of 30 multiple choice questions.
- Only participants who successfully pass the online test will be able to proceed with part two of the EBUS training programme.

#### Course format:

- Online modules
- Lectures
- Breakout sessions
- Pre-recorded procedures with live commentaries
- Live procedures
- Panel discussions
- Online assessment
-
