ERS Course EBUS training programme – part one

22–23 March 2022 | Heidelberg, Germany
28–29 June 2022 | Amsterdam, Netherlands

Part one of this training course returns in person, it will provide participants with the theoretical knowledge that is required for Endobronchial ultrasound (EBUS).

Join us for:

- Interactive cases
- Lectures
- Workshops
- Live demonstrations
- Patient handling
- Online modules
- Discussions
- Online assessment

IMPORTANT INFORMATION

- Prior to the course, all participants are requested to study online modules which cover topics such as anatomy, indications and contraindications, imaging modalities and basic ultrasound.
- There are a limited number of places available, so please register soon.
- Two weeks after taking part in the course, participants must complete an online test consisting of 30 multiple choice questions. Participants have to complete the test within one hour and answer at least 21 questions (70%) correctly.
