

# ERS Virtual school on rare lung disease in collaboration with ERN-LUNG

**21 June, 2022**

This interactive online course will provide participants with a comprehensive overview of how to diagnose and treat rare lung diseases.

Join us online for:

- An overview on how to diagnose and treat rare lung diseases, including interstitial lung diseases, pulmonary hypertension, cystic fibrosis, primary ciliary dyskinesia, non-cystic fibrosis bronchiectasis, rare obstructive lung diseases and rare thoracic malignancies.
- Lectures, case presentations with interactive discussions, round table discussions and case-based sessions, with cases submitted by participants.

## IMPORTANT INFORMATION

This course aims to ensure that people living with rare conditions can benefit from the best treatment and advice.

There are a limited number of bursaries available to cover the cost of the course, apply by 6 May, 2022.

Participants can submit clinical case to be presented in a session clinical cases until Sunday, 29 May 2022.
